

**REMARKS**

The present amendment is submitted under 37 C.F.R. § 1.312 in order to amend claim 6. Specifically, it is noted that claim 6 already recites "etching a part of said reflective film" and the present amendment merely amends claim 6 to provide positive antecedent basis for the feature "said reflective film" by adding the following: "forming a reflective film covering said second insulating film." The Applicants respectfully submit that the correction of claim 6 does not add new matter, and does not require additional search or examination. Review and approval is respectfully requested.

Should the Examiner believe that anything further would be desirable to place this application in better condition for publication, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,

Eric J. Robinson
